

MATHEMATICS OF THE USSR-SBORNIK

Volume 70, Number 1, 1991

A. Yu. Kolesov and E. F. Mishchenko , <i>The Pontryagin persistence phenomenon and stable duck cycles of multidimensional relaxation systems with one slow variable</i>	1
P. L. Ul'yanov , <i>On classes of infinitely differentiable functions</i>	11
N. A. Larkin , <i>On the solvability of steady-state transonic equations in an unbounded domain</i>	31
A. I. Tret'yak , <i>On odd-order necessary conditions for optimality in a time-optimal control problem for systems linear in the control</i>	47
Yu. B. Khakimdzhinov , <i>Characteristically nilpotent Lie algebras</i>	65
A. M. Kytmanov , <i>On the $\bar{\partial}$-Neumann problem for smooth functions and distributions</i>	79
A. I. Bondal and M. M. Kapranov , <i>Enhanced triangulated categories</i>	93
V. Zh. Dumanyan , <i>On the uniform quasiasymptotics of solutions of hyperbolic equations</i>	109
A. V. Arkhangel'skiĭ , <i>On linear topological classification of spaces of continuous functions in the topology of pointwise convergence</i>	129
Yu. D. Latushkin and A. M. Stĕpin , <i>Weighted shift operators, spectral theory of linear extensions, and the multiplicative ergodic theorem</i>	143
I. D'ënd' [I. Gyöngy] , <i>On approximation of Itô stochastic equations</i>	165
V. Yu. Shelepov , <i>On the index and spectrum of integral operators of potential type along Radon curves</i>	175
V. B. Dybin , <i>The Wiener-Hopf equation and Blaschke products</i>	205
A. O. Smirnov , <i>Real elliptic solutions of the "sine-Gordon" equation</i>	231
S. M. Kozlov and A. L. Pyatnitskiĭ , <i>Averaging on a background of vanishing viscosity</i>	241
S. I. Fedorov , <i>Harmonic analysis in a multiply-connected domain. I</i>	263

Volume 70, Number 2, 1991

S. I. Fedorov , <i>Harmonic analysis in a multiply connected domain. II</i>	297
G. G. Kazaryan and V. N. Markaryan , <i>Lower bounds for the functional dimension of the solution space of hypoelliptic operators</i>	341

D. A. Korotkin , <i>Finite-gap solutions of the $SU(1, 1)$ and $SU(2)$ duality equations and their axisymmetric steady-state reductions</i>	355
I. A. Taimanov , <i>Prym varieties of branched coverings and nonlinear equations</i>	367
A. E. Tumanov , <i>Extension of CR-functions into a wedge</i>	385
V. A. Zolotarev , <i>Time cones and a functional model on a Riemann surface</i>	399
A. S. Andreev , <i>Estimates of the spectrum of compact pseudodifferential operators in unbounded domains</i>	431
M. G. Grigoryan , <i>On convergence of Fourier series in complete orthonormal systems in the L^1-metric and almost everywhere</i>	445
V. L. Kamynin , <i>Limit passage in quasilinear parabolic equations with weakly converging coefficients, and the asymptotic behavior of solutions of the Cauchy problem</i>	467
A. S. Belov , <i>A problem of Salem and Zygmund on the smoothness of an analytic function that generates a Peano curve</i>	485
Yu. V. Muranov and A. F. Kharshiladze , <i>Browder-Livesay groups of abelian 2-groups</i>	499
V. V. Lebedev , <i>Change of variable and the rapidity of decrease of Fourier coefficients</i>	541
N. I. Grinberg , <i>The one-dimensional inverse scattering problem for the wave equation</i>	557
Yu. V. Billig , <i>Affine modular Lie algebras</i>	573
S. P. Strunkov , <i>Some conditions for the existence of p-blocks of defect 0 in finite groups</i>	587
